"Synopsis This five-volume series captures today's entire state of knowledge about urology in detailed, pictorial form. More than 100 prominent urologists bring you images of exceptional quality that exemplify contemporary science and practice. Each volume explores a particular aspect of the field. Over 3000 vivid line drawings, clinical photographs, diagrams, charts and tables illustrate every facet of the principles and practices of clinical urology. Together with detailed legends and extensive reference listings, these illustrations deliver insightful guidance to help you meet a full range of clinical challenges."
