LinguaBoost Swahili is a audio course for beginners, as a refresher course, or for anyone who struggles with becoming fluent in Swahili. The focus in this course is to practice speaking conversational Swahili from the very first lesson. The course is divided in 30 lessons. Each lesson contains between 6-8 phrases related to a specific topic, so at the end of this course you have been practising to speak and listen to about 200 useful everyday phrases. Based on techniques and strategies that make language learners succeed: Learn in short bursts everyday Every lesson takes about 10 minutes to complete. Learn in context Isolated words or random sentences won't get you far. By learning phrases related to a specific topic or situation you will see much better results. Focus on high frequency words Starting with the most frequently used words will boost your comprehension and communication in your target language. Review the material Repeating the phrases in certain specified intervals is a powerful technique to help your memory absorb and recall what you have learned. Listen to native speakers All the phrases are translated and spoken by native speakers.
