"Über den Autor und weitere Mitwirkende Robert is a pioneer in the field of inner child healing / codependency recovery. He discovered and developed a holistic strategy for emotional healing and spiritual integration that is the next level of recovery / healing / spiritual awakening that so many people have been seeking. The inner child healing paradigm that he discovered offers a powerful, life changing formula for integrating Love, Spiritual Truth, and intellectual knowledge of healthy behavior into one's emotional experience of life - a blueprint for individuals to transform their core relationship with self and life. His first book Codependence: The Dance of Wounded Souls has been called 'one of the truly transformational works of our time' - and it's author Robert Burney referred to as 'a metaphysical Stephen Hawking.' A counselor/coach and Spiritual Teacher whose work has been compared to John Bradshaw's 'except much more spiritual' and described as 'taking inner child healing to a new level' - Robert in his book combines Twelve Step Recovery Principles, Metaphysical Truth, and Native American Spirituality with quantum physics and molecular biology in presenting an understanding of the human condition that is life changing and transformational."
